

Dermachron®

A combination of active ingredients formulated according to chronobiologic principles, consisting of vitamins, nutrients, trace elements and plant-based components. The substances contained in an activating morning capsule and a regenerating evening capsule prevent premature aging of the skin, combat wrinkles from within and protect the skin against harmful effects of the environment.

Basic Facts

In the course of life our skin loses its natural ability to regenerate itself. First signs of aging can no longer be easily fought against out of our own. In addition, harmful effects of the environment as well as stress promote the increased formation of free radicals in the skin.

These cell-damaging, oxidizing substances attack the cells of the skin. They are among the main causes for the aging process of the skin, which begins in the second decade of life, already.

In aesthetic medicine, the main focus of its numerous therapeutic concepts is the external appearance. Wrinkles are filled up by injections, excessive skin is removed, fatty depots are treated with suction. However, more and more people become aware of the fact that, in the long run, a holistic approach is the better alternative. It is not only health that comes from within – in a certain sense it is also beauty. The newly kindled interest also includes the integrated anti-aging medicine. It takes into consideration a possible lack of substances produced by the body itself or an excess of foreign substances. If active ingredients are replaced in an ideally balanced form this also influences the age-typical changes of the skin.

Effects

Dermachron® is THE beauty treatment practiced from within. It is a fact that frequently experienced problems are not caused by just one single or very few factors alone. Eight causes may be at the bottom of adverse effects – the formula of Dermachron®, with its comprehensive substances, aims at removing these disturbances and blemishes of the skin. First and foremost there is the improvement of the blood supply, but limiting destruction of the cells by free radicals is also of prime importance. The aging and excess stress of the skin are further parts of the problem, quite frequently cell regeneration is also slowed down or impaired.

When the skin suffers it loses its radiance, and also the ultraviolet fraction of the solar spectrum contributes its share to an accelerated aging of the skin. Finally, the ability to store moisture also decreases. To improve each one of these conditions, Dermachron® contains an active ingredient, from very potent antioxidants to specific mineral mixes to hyaluronic acid.

Substances in an AM formula and a PM formula support the full spectrum of the metabolism of the skin. In line with the respective time of the day, the well-balanced components of Dermachron® fulfill the various tasks of supply, repair and detoxification around the clock. The concentration in one morning capsule and one evening capsule guarantee optimum intake and effect.

In order to be effective, substances must undergo certain processes during their digestion. Chronobiology plays an important role in this connection. The time of the day is a factor that influences the efficacy of many substances, and this factor is taken into consideration when formulating an optimal, chronobiologically correct food supplement. Because the problems of the skin are manifold. Individual, cosmetically important vitamins are of great significance. Eight plant-based or biochemical antioxidants like grape-seed extract or white tea extract protect against oxidative stress. At the same time they improve the blood supply of the fine vessels of the skin. Trace elements are indispensable for renewing the structure of the tissue. Their lack results in loose skin and loss of hair. Both the morning capsule and the evening capsule contain well balanced herb complexes which have a strengthening effect on the connective tissue. The capsules bioactively support the nutrient balance of the skin around the clock.

Vitamin A: promotes the growth of firming collagen fibers.

Vitamin C: by trapping radicals, it is an especially effective part of the «antioxidant network».

Vitamin E: protects the cholesterol in blood against oxidation and supports the effect of vitamin C.

Selenium: protects the skin against harmful UV rays.

Alpha lipoic acid: as a corner stone of the «antioxidant network» it is especially efficient, slows down aging processes.

Coenzyme Q10: a further, highly potent component of the «antioxidant network», fights free radicals.

White tea extract (polyphenols 40%): valuable rarity made from the unopened leaves with a white fuzz, lowers the blood pressure, polyphenols provide high protection against uncontrolled cell growth.

Herb complex AM (extracts of burdock root, red clover blossom, dandelion, blessed milk thistle): protects proteins and lipids against oxidation, has an anti-inflammatory effect and improves the blood supply.

Bioperine®: pepper extract, increases the bioavailability of substances.

Coral Calcium®: regulates the pH value of the organism. The more balanced this value the higher the organism's ability to absorb all the other active substances.

Vitamin B3: a vitamin important for the skin, has an important role in regeneration and improves the binding of moisture.

Zinc: indispensable for healthy skin, hair, nails, protects against harmful rays.

Folic acid: also known as vitamin B9, promotes the building-up of important cell components in various organs.

Aloe vera: also known as «desert lily» contains about 220 active ingredients; known as a skin antibiotic, it has an internally detoxifying effect and externally a regenerating effect, maintains the youthful freshness of the skin.

Hyaluronic acid: as a component of the firming connective tissue, it regulates the moisture film of the skin from within.

Biotin: essential constructive vitamin, protects against cracked skin.

Astaxanthin: highly effective anti-aging substance for the skin on the basis of carotene.

Lutein and zeaxanthine: Both substances neutralize free radicals and reduce oxidative stress (antioxidant effect).

Tocotrienol complex: to smooth the relief of the skin, highly-active repair substance.

MSM: natural sulfur compound, important modulator of the immune system, detoxifying, anti-inflammatory, pain-killing.

Herb complex PM (extracts of calendula, grape seed, horsetail): helps the skin to regenerate.

Composition

AM capsule (morning)

	daily dose
Vitamin A (palmitate)	1500 mcg
Vitamin C	60 mg
Vitamin E (natural succinate)	20 IU
Selenium (Se)	100 mcg
Alpha lipoic acid	25 mg
Coenzyme Q10	1 mg
White tea extract	50 mg
Bioperine®	5 mg
Coral Calcium®	25 mg
Herb complex (extracts): burdock root, red clover blossom, dandelion, blessed milk thistle	400 mg

in pharmaceutical grade. Other ingredients: rice flour, magnesium stearate.

PM capsule (evening)

	daily dose
Niacinamide	30 mg
Zinc (Zn)	10 mg
Folic acid	0,4 mg
Aloe vera extract	4 mg
Hyaluronic acid	6 mg
Biotin	300 mcg
Astaxanthin	200 mcg
Lutein	200 mcg
Zeaxanthin	8 mcg
Tocotrienol complex	50 mg
MSM	500 mg
Herb complex (extracts): marigold, grape seed, horsetail	185 mg

in pharmaceutical grade. Other ingredients: magnesium stearate.

Dosage

In normal cases take 1 capsule AM (yellow) in the morning and 1 capsule PM (blue) in the evening with plenty of fluid.

Instructions

Food supplements are no substitute for a well-balanced diet and a healthy lifestyle. The indicated recommended daily intake should not be exceeded. Persons under constant medical care should consult a physician before taking the supplements. Product information is not to be considered a statement regarding cure; in general, we advise against self-medication without proper consultation of a doctor. Subject to mistakes and print or typographical errors.

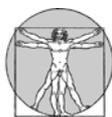

Store in a cool and dry environment, out of reach for children.

Dermachron® Product Groups

Dermachron® can be found in the following product groups (www.vitabasix.com):

-  **Vitamins & Food Supplements**
-  **Chronobiology**
-  **Skin & Hair**
-  **Immune System, Cell Protection & Antioxidants**
